

Hamam

The Hamam in its original form serves the cleansing of the body, well-being and cleanliness. This includes oriental sensuality, fragrant scents and luxurious equipment. The personal well-being is noticeably increased. Tensions are released, the blood circulation of the skin is stimulated. Regular hamam visits create a high cosmetic effect for the whole body. Through holistic treatments you will experience the visit as extremely refreshing and invigorating. The complete relaxation with peeling, soap and massage applications is a pleasant consequence of these rituals. All rituals begin with a briefing and include visits to the steam baths.

Tau Spa recommendation: All individual experiences can also be booked in pairs.

Hamam Walkthrough

Hamam – Independent Walkthrough 1 hour 30 minutes

Care of body, mind and soul. The Hamamritual follows a traditionally given operational sequence.

In order to enjoy the oriental bathing cult, you need time, desire and curiosity for something extraordinary. We will give you an introduction to the process as well as Pestemal, peeling glove and soap, with which you can peel and wash yourself independently. This is followed by a Rasul with caring mineral mud. The healing muds in different colours and granulations are applied to the body in self-application. The combination of moist warmth and mud stimulates the metabolism and cleanses the skin deep into the pores.
